Target location: Abu Dhabi, United Arab Emirates

PROFESSIONAL SUMMARY

3D Artist and Graphic Designer with experience in product visualization, e-commerce creative design, promotional videos, and augmented reality / virtual reality (AR/VR) assets. Create realistic product models and renders, digital advertisements, and brand campaign visuals for power tools and online retail. Combine modeling, texturing, lighting, rendering, and animation with graphic design to communicate product features clearly. Experienced in collaborating with marketing, development, and content teams, with Blender and Adobe Creative Cloud tools supporting the production workflow.

CORE SKILLS

3D PRODUCTION: Product modeling, texturing, lighting, rendering, animation, AR/VR asset creation and optimization.

GRAPHIC DESIGN: E-commerce listing images, Amazon and Flipkart product visuals, marketing posters, digital advertisements, brand consistency, visual communication.

VIDEO AND WORKFLOW: Product videos, promotional content, AI-assisted visual production, cross-functional collaboration.

PROFESSIONAL EXPERIENCE

Brand Visual Designer | iBELL Power Tools

2025 - Present

- Create realistic 3D product models and renders for Amazon, Flipkart, and other online listings, presenting product form and features through clear visual content.
- Develop product visuals through modeling, texturing, lighting, and rendering, combining 3D production skills with e-commerce design requirements.
- Design marketing posters and digital advertisements for product promotions and brand campaigns, maintaining consistent branding across digital content.
- Produce product videos and promotional visuals that explain product features and support marketing communication.
- Collaborate with the marketing team to translate campaign requirements into coordinated product renders, graphics, and video content.

3D Artist and Graphic Designer | KiXR

2023 - 2025 | Bangalore, India

- Created and optimized 3D assets for immersive AR/VR applications, supporting visual content for interactive experiences.
- Worked with developers and content teams to align 3D assets with application and content requirements.
- Applied 3D modeling and visual design skills to asset development, balancing visual presentation with the needs of immersive environments.
- Explored AI-assisted scene generation as part of the visual production workflow

SOFTWARE AND TOOLS

3D AND TEXTURING: Product modeling, texturing, lighting, rendering, animation, AR/VR asset creation and optimization.

DESIGN AND MOTION: E-commerce listing images, Amazon and Flipkart product visuals, marketing posters, digital advertisements, brand consistency, visual communication.

AI- ASSISTED CREATION: Product videos, promotional content, AI-assisted visual production, cross-functional collaboration.

EDUCATION

C-Tech Higher Diploma in 3D Animation | 2021 - 2023

NSDC, IAD Kollam | Training in modeling, animation, lighting, and rendering using Blender and Maya

Higher Secondary Education in Commerce | 2014 - 2016

NSS HSS Chathannoor | Kerala Board of Higher Secondary Education
